

TWO WAY H-PLANE WAVEGUIDE POWER DIVIDER

Two way H-plane waveguide power divider is applied in waveguide paths for Ku-band signals equal dividing. Typically used for 2 antennas assembling

This two way H-plane waveguide power divider is used in our sector assembly - [OLSAA-KuH2 omni antenna](#)

Parameter	Table
Return loss, dB	-25
Insertion loss, dB	0.5
Isolation, dB	6-7

Taking into consideration that we (UMT LLC) are developer and system integrator, also do not stop on our technical growth and improvement, know that view of all our devices and equipment including their technical parameters may be different from pictures presented on website and parameters listed on each device webpage.

Note! All details customer has to confirm in advance during ordering and before payment. Those parameters that were not specified and / or were not agreed while ordering will be implemented as basic at the discretion of the manufacturer. Each our customer has 1.5 year warranty and 7 year aftersales support for whole range of our products.
